Mr. Skidmore,

I understand that you represent Tyler Technologies in an eCourts lawsuit. The following file numbers are sitting in a Tyler Technology cloud/website eCourts portal listing me as a Defendant. The thing is, none of these court files exist anywhere in Durham County Court. This is defamation/libel against me from Tyler technologies that is posted in the internet. Please have Tyler Technologies to remove these file numbers immediately from the portal. Otherwise, I will be filing a MASSIVE lawsuit in the Middle District.

Please see *Wiest v. E-Fense, Inc.*, 356 F. Supp. 2d 604 (E.D. Va. 2005)

Please have Tyler Technologies to seal this records provisionally.

(5)Disclosure Pending Decision. Until the court rules on the motion, a document that is provisionally under seal may be disclosed only to counsel of record and unrepresented parties unless otherwise ordered by the court or agreed to by the parties.

Subject: LIBEL ECOURTS DURHAM LAUNCH 4/29/2024

Ms. Diaz,

Please see email trail below. This email to you represents Tyler Technologies being made fully aware of libelous and false information being allowed to sit in your cloud and posted on the internet about me. You see, the North Carolina AOC (Ryan Boyce Director) did not tell you all that the two Courthouses who uploaded this content (Durham and Wake County) both have a history of destroying court files related to me.

To confirm what I am saying to be true, simply ask the people in Durham County who uploaded the first seven files listed below, Ryan Boyce to provide the last two files uploaded from his office, and the people in Wake County who uploaded 05CR080745-910 and 98CR018968-910, to provide you with a copy of the file. They will not be able to produce this.

Then ask them to produce the files for the other files numbers. They will not be able to produce the entire file because they have no way to tell what has been destroyed in the file. Therefore, the allegations posted about me are false. All of this represents libelous information posted on the internet about me. The information posted about me is from two unreliable sources. Your company has no way to prove the information posted about me is true.

I want these files removed from your cloud/internet immediately. If not, I will be filing a MASSIVE libel suit against your company within the next two weeks in the Middle District of North Carolina. On April 30, 2024, your company was made aware of what is going on.

Please reference case below.

Subject: [Virus Error] EXPUNGED RECORDS YOUR COMPANY UPLOADED - LIBEL- YOU WILL DEFINITELY WANT TO RESPOND ASAP TO ME!!!

I see these two files are still showing, along with others. You all must think I am a joke. You see, these two files were not uploaded by your clients (NCAOC or Durham County Courthouse) because they were destroyed/ expunged almost ten years ago. In addition, these file numbers are not even the file numbers listed on the initial expungement order for the charges. This is how I further know that the AOC nor Durham County uploaded these files online.

You all uploaded these two fictitious file numbers and false/libelous allegations from GOD knows what website. I've read your privacy policy in regards to how you collect information. This defamatory information accusing me of a crime has been online for three days so far. An expungement allows a person to deny anything related to the charges.

Here is my offer to resolve this before filing my libel suit for this information sitting online (3 days so far).

\$20 million payment for compensatory damages and ALL of the files I emailed to you removed from this cloud/internet portal.

This offer is valid until COB tomorrow. Otherwise, I will be filing a \$100 million libel suit against Tyler Technologies for these two fraudulent accusations. Abigail you will be listed as a Defendant in your individual capacity for punitive damages, as you have ignored me and allowed this defamatory information to sit online since 4/29.

Please know,

The longer this information sits online, the more my offer will increase. In fact, I now want my name to be completely removed from Tyler's cloud/internet portal.

I am looking at these two files still in eCourts. It states these charges were in Durham District Court. These charges were in Durham Superior Court. Also, the offense dates are incorrect.

In addition, I have never lived at the address listed. The address listed for me does not even exist in Durham.

So, as I've stated, your client uploaded this information from a fictitious source.

Monday will make a week for this information sitting online. Your client is nonchalant about their actions and they don't care about the damages they have caused.

My demand is now \$50 million and my name completely removed from your client's cloud/internet portal.
